

Oxford – Berlin

School on

Molecular Basis of Inflammatory Diseases

The aim of this school is to bring together graduate students and clinician scientists from across the globe, with faculty of the Kennedy Institute of Rheumatology, Charité – Universitätsmedizin Berlin, and DRFZ in a structured programme providing advanced training in the molecular mechanisms and pathogenesis of chronic inflammatory disease.

Speakers

Tal Aron (OX)
Gerd Burmester
Hyun-Dong Chang
Mark Coles (OX)
Andreas Diefenbach
Thomas Dörner
Lynn Dustin (OX)
Mike Dustin (OX)
Marco Fritzsche (OX)
Audrey Gerard (OX)
Anja Hauser
Jethro Johnson (OX)
Luke Jostins (OX)
Toralf Kaiser
Max Löhning

Mir-Farzin Mashreghi
Henrik Mei
Jelena Bezbradica Mirkovic (OX)
Raluca Niesner
Julia Polansky
Andreas Radbruch
Chiara Romagnani
Stephen Sansom (OX)
Britta Siegmund
Katja Simon
Antigoni Triantafyllopoulou
Irina Udalova (OX)

Keynote lecture

Fiona Powrie (OX)

Technology platforms

Mass Cytometry and
Imaging Mass Cytometry
Flow Cytometry
Next Generation Sequencing
Intravital Microscopy and Imaging

June 9-10, 2022
Venue: Berlin Mitte

For
Master students,
Ph.D. students,
MD students and
Junior clinician-scientists
with an interest in
rheumatic or chronic
inflammatory
disease

**Registration
fee:
50 Euro**

Organisers

Ahmed Hegazy
Alexander Clarke (OX)
